

Freedom Flex H4 IP X6

Freedom Flex H4 IP features a removable battery for easy charging and battery swapping making this 100% wireless, battery-operated par with a built-in D-Fi transceiver even more flexible and powerful. The Freedom Flex H4 IP X6 system includes six Freedom Flex H4 IP fixtures and six quick-change battery packs in a rugged road case with built-in charger. Freedom Flex H4 IP has hex-color (RGBAW + UV) LED technology for unlimited color mixing capabilities. The fixture is temporary outdoor-rated and has a robust housing that repels water, snow, dirt, and sand for all-weather applications. Freedom Flex H4 IP has multiple wireless triggering and control options via the [FlareCON Air](#) and the FlareCON app and it works in master/slave mode with any Freedom Par. Convenient, wireless non-DMX control is also available with the included [IRC-6 remote](#). An adjustable kickstand helps shine light exactly where it's needed and the built-in glare shield prevents unwanted light spillage. Customized colors can be created using the easy to read built-in LED display. Achieve smooth LED fading with built-in dimming curves. The compact and lightweight design of the Freedom Flex H4 IP fits easily inside sticks of Trusst.
